

# The perfect eye

## FEATURES:

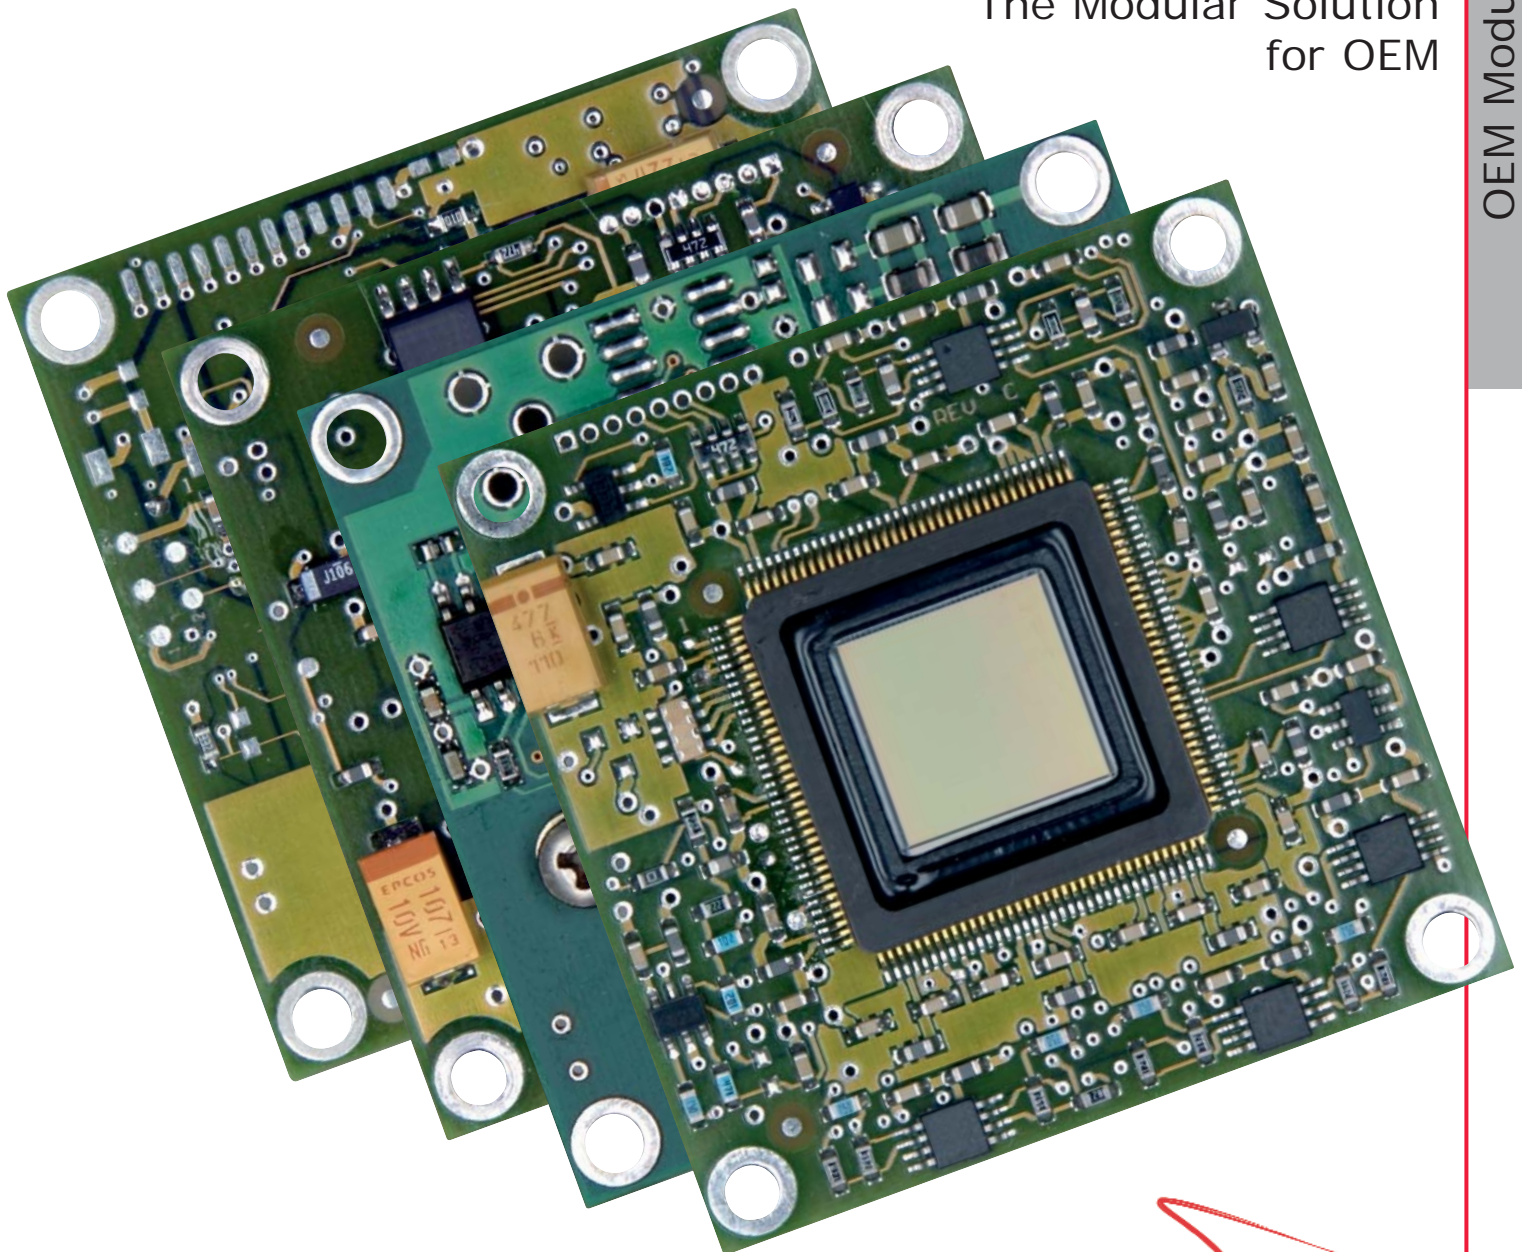

- Different speed and resolution available
- Modular concept (sensor, ADC, communication)
- Compact and flexible design

## APPLICATIONS:

- Implementation into existing devices
- Independence of camera design
- Fast design-in cycle

## OVERVIEW

The Modular Solution  
for OEM

# OVERVIEW

- more than 30 OEM modules from image sensors up to the right interface
- well proven and tested in Photonfocus cameras
- modular concept - flexible and cost effective
- the right solution for high volume automation

## Sensor Modules

	OEM-D1024	OEM-D752	OEM-A1024	OEM-A1024x128	OEM-A752	OEM-D640
Models	1	1	6	3	6	10
Resolution (pixel)	1024 x 1024	752 x 582	1024 x 1024	1024 x 128	752 x 582	640 x 480
Speed versions / fps	37	87	27/75/150	210/590/1180	60/175/350	100/129/200
Color versions	monochrome	monochrome	monochrome	monochrome	monochrome	monochrome/color
Connector versions	rigid / flexible	rigid / flexible	rigid / flexible	rigid	rigid / flexible	rigid / flexible

## ADC Modules

### OEM-ADC

Models	3
Speed versions	3
Connector versions	rigid

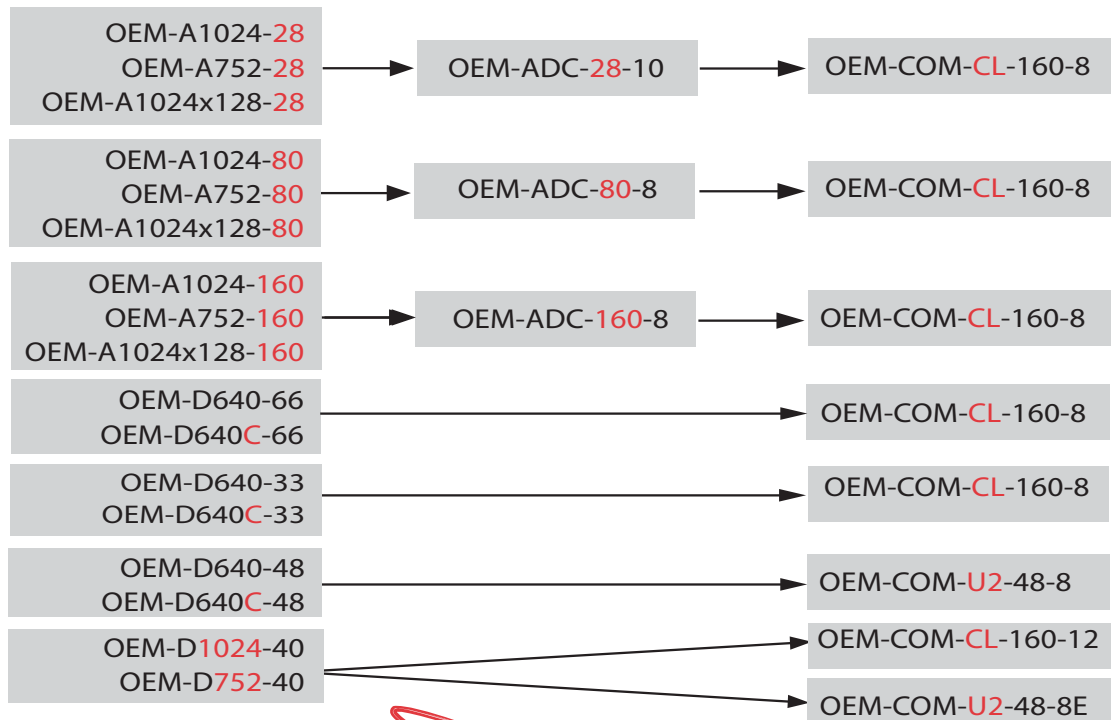

## Interface Modules

### OEM-COM-CL

### OEM-COM-U2

Models	2	2
Interface versions	CameraLink™ base configuration	USB 2.0

## Combination of OEM Modules
